The Vibration of Thought Energy

“Nothing rests; everything moves; everything vibrates in The ALL, yet movement is not ALL.” –

Supreme Grand Hierophant Tehuti

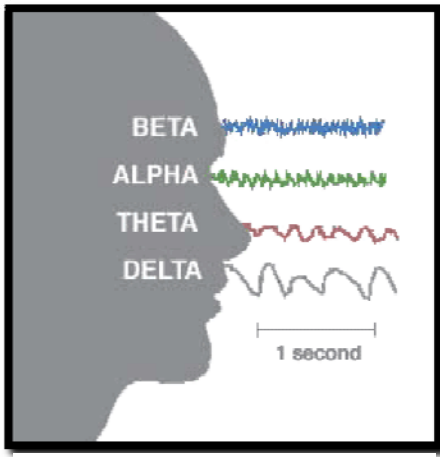

Question: What is Vibration?

Answer: According to the Merriam Webster's online Dictionary the word Vibration means:
Pronunciation: \vī-'brā-shən\ Function: *noun* **4**
a : a characteristic emanation, aura, or spirit that infuses or vitalizes someone or something and that can be instinctively sensed or experienced —often used in plural **b : a distinctive usually emotional atmosphere capable** of being sensed —usually used in plural.

Everything in **NATURE** and **Existence Vibrates**, and there is a constant **Rhythmic Motion** throughout the **Universe (Multi-Verse)**. Nothing in nature rests, there is **constant motion** and **constant vibrations**, thus as

The Vibration of Thought Energy

everything **Vibrates** so does your **Thoughts**, and as you think a **Thought** you send out **Vibrations** of **Positive Energy** or **Negative Energy**, depending on the **Nature of your Thoughts**. Like a stone thrown into the **Water** your **Thought** produces **ripples** and **waves**

Brain Waves

which spread out over the **Great Ocean of Thought**. There is this difference, however: the

The Vibration of Thought Energy

waves on the water move only on a **level plane in all directions**--whereas **thought-waves** move in **all directions** from a common center, just as do the rays from (**PAA RE**) **The SUN**.

Question: What is Energy?

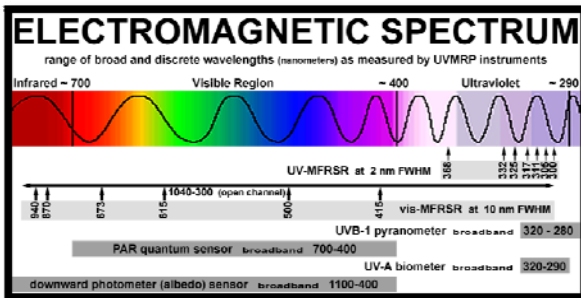

Answer: There is a great deal of **Energy** flowing freely throughout the **Universe**. This **Energy** is seen in the **Form of Light**. In fact, **Light** is the **Visible** part of **Energy**, the “**Electromagnetic Spectrum**,” and a **Spectrum** is a range of things related by certain **characteristics**. In this case, the **Spectrum of Light** is made up of **Energy** that travels through **Space** much like a “**Wave that Ripples in a Pond**”. Scientifically the height of the **Wave** is called the **Amplitude** or the **height** of its **intensity**. The distance between the peak of one **Wave** and the peak of the next is called **wavelength** and the time per second that it takes a **Wave** to pass through a specified point is the **Frequency**.

The Supreme Being Tehuti

The Vibration of Thought Energy

The **Spectrum** is called “**Electro Magnetic**” because it has an **Electric Field** as well as a **Magnetic Field**. The **Electric Waves** of the **Electric Field** are identical in **Amplitude**, **Wavelength** and **Frequency** as the **Magnetic Waves** of the **Magnetic Field**, hence, **Electromagnetic**. Thus we have the “**Electromagnetic Nature of Life**”.

The Electromagnetic Spectrum of Light

When everyone was born, they received a **Breath of Life**. That **Breath of Life** was in

The Vibration of Thought Energy

actuality a **Breath of Light**. Not the **Light** of a **Light Bulb**, but a **Light of Life**, giving pouring forth forever emanating and forever penetrating. This **Light** is what makes you a **Living Soul (Pure Green Light Essence)**.

This **Light** existed **Darkness** in a **State of Void** before it became “**Something or Sum thing**”. **Life itself is a burning!** Life springs from an **acid base** and is perpetuated (**continued**) by that **acid base**. Of course, **acid burns**, so hence, “**Life is a burning**”, like the **acid in a car battery** is the life of the car. The car is made active by **gas burning** and the **Person** is made active by **Blood burning**.

When a **Baby** actively starts to **breath** the **Oxygen (Air)** it breathes goes to the lungs, and acid in the **Blood** in its **Lungs** burns the **Oxygen** the **Child** breathes, and that burning is **Natural Electricity** called **Ether** which is **Life**.

The Vibration of Thought Energy

Electricity or **Electrical Energy** can be sent over long distances! **Thoughts which are Electrical become things.** They can be seen (**Light**) and Felt (**Heat, Cool, etc...**)

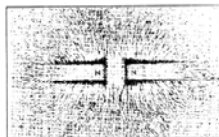

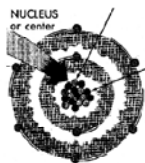

Thoughts operate on the principle of **Electrical Energy**. **Electrical Energy** is of a special importance in **Energy** changes. Most forms of **Energy** can be changed into **Electrical Energy**.

Electrical Energy, in turn can be changed into almost any other **form of Energy**.

Magnetism:

A **Magnet** works off of the **Principle of moving Electric charges**. An

The Energy Fields Of A Magnet

Electric current produces a **Magnetic Field**. In **Atoms** there are **Electrons** moving around the **Nucleus** or Center of the **Atom**. In most **Atoms**, the **Electrons** spin in different directions and their **Magnetic fields** cancel each other. But in **Atoms** of a **Magnetic Element**, such as **Iron** and **Nickel**, the fields do not cancel each other. Once the fields get large enough so that they don't cancel each other, they are dipole; meaning pointing in different directions, then the **Magnet** becomes fully **magnetized**.

Emotional Energy

Energy is defined as the power by which anything acts effectively to move or change things or accomplishes any result, or “**power in active exercise,**” or more simply, “**the capacity to perform work.**” It divides energy into “**potential energy**” and “**kinetic energy.**” Anything in motion has **kinetic energy**, a moving automobile, a falling rock, a breaking wave. **Potential Energy** is sub-divided into “**available energy**” and “**diffuse energy.**” To explain this we might say a spring that is used in a clock contains available energy, while a lump of charcoal contains diffuse energy, the difference being that the spring being used for the clock is ready for immediate work but the piece of charcoal must be burned before its energy is released in the form of heat.

All life **energy** is diffuse. It must be converted or transformed in some way in order to be put

to work. Every **Human Being** has an array of **energy transformers** which enable him to draw upon the life energy which surrounds him and in which he lives, moves and has his being.

Our **Ancient Egyptian (TaMa-Rean) Ancestors** termed these **transformers** as “**Arushaat**” (**Chakras**) or **energy seats**. The **Ancient Hindu** or **Sanskrit** term for these **transformers** is **chakras** or **wheels**. This name comes from their appearance. To a person who's third eye is open and has inner vision these energy seats look like rapidly spinning wheels of different-colored light, coming from the **Electromagnetic Spectrum**.

The **raw life energy** is **pure** and without any distinguishing characteristics but when it is transformed into **Human Energy** by one of these **Energy Seats (Arushaat, Chakra)**; it takes on the quality of that particular **Transformer** or **Energy Wheel**. The most fully opened and

therefore most active **Energy Seat, Arusha (Arushaat)** or **Chakra** in average **Humans** is the **Solar Plexus (seat of the subconscious mind)**, whose chief product is **Emotional Energy**. In Consequence these people are “**Emotionally focused,**” which means that most of their actions are taken as the result of an “**emotional impulse or urge**”. In order to open the deeper gates or doorways of our Mind, thus using our full mental potentials we must reestablish control over our **Emotional Energy** and how we use it.

Electrical Energy – Energy in Motion (Emotion)

All around you is **Energy – Electrical Energy**, exactly like that which makes up the solid objects you possess. The only difference is that the loose Energy around us is unaccounted for. It is still virgin gold – **untouched, undiscovered and unclaimed. You can think it into anything you wish** – great health or sickness, into

The Vibration of Thought Energy

strength or **weakness**, into success or failure. What will you form this Energy into in order to live your life's purpose? There is nothing good or bad but **Thinking** makes it so! The **Overstanding** of this **Law** within Nature will enable you to control every other **Law** that exists. In it is to be found the "**Universal Remedy**", for all ills, the satisfaction of all want, all needs and "**Desire**". It is **Creative Mind's** own provision your freedom. **Today is the start of the rest of your life**, this statement simply means you always have the power to start over, to remake or renew your life.

How do you see yourself today? Where are you going and what do you truly want to do with your life? What is your true life's destiny? You can learn through the powers of your **Subconscious Minds** to find the answers to these questions and many, many more. The universe is boundless, and infinite energy, this energy again is just waiting for us to tap into it.

The Vibration of Thought Energy

How will you use your **Mind Power (Thought Energy)** to shape this “**Electrical**” Energy?

Question: What is Thought?

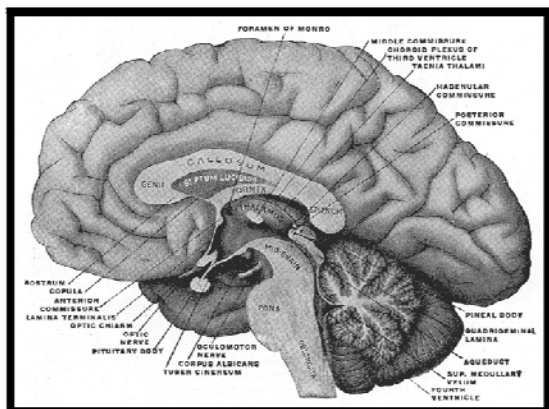

For **Thought** is **creative energy**. **Thought** brings things into being that you **think**.

Question: Where do your thoughts come from?

Answer: Your **Mind** feeds off a **Mental Reservoir**. **Mind** is phonetically associated with mine or my personal connection to the intellect **ALL (PAUT)**. Thus, my **Mind** feeds off the **Mental** through an **Etheric Cord** that is connected directly to me, so I say my “**Mind is Mine**”.

Question: “Where is your mind?”

Answer: You might have said in your **Brain** right? When you ask the average person today, to show me you’re **Mind**, most people will point to their head. The reality is your **Mind** is not in your physical head. Your **Conscious Mind** resides on a much more subtle **Plane of Existence**. Your **Mind** known as your **Conscious Mind**,

The Vibration of Thought Energy

is linked to your **Subconscious Mind** which is linked to what is termed the **Mental Reservoir of Thoughts** also known as **Universal Consciousness**, which is the **Mental Plane of Existence**.

Your **Mind** resides in those heavenly realms that you might say **GOD**, or **ALLAH**, or **Yahweh** can hear. Your Mind uses the **Brain** as a machine or a switch board and depending on how you develop and exercise your **Mental Muscle** called the **Brain**, determines the quality of thoughts you will have in your life.

So again your **Mind** and your **Thoughts** are in reality **Spiritual in Nature**, meaning the process of thinking has an effect on **atoms** and **molecules** which in turn produces what is known as **Thought Waves**.

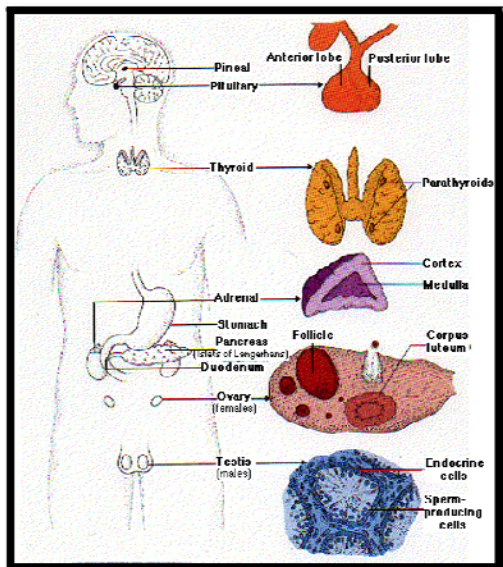

Thought Waves produce **Vibrations** or **Unseen ripples** throughout ones environment that,

The Vibration of Thought Energy

depending on the nature of the thought extends further and further out from one's self affecting the world of the unseen (**Ethers, Atoms, Molecules**) and manifesting in **Solid Reality**. Our **Thoughts** are **Spiritual in Nature**.

Think about this, your mind has the ability to **re-produce sound, pictures, colors, old Thoughts, New Thoughts** and even **Future Thoughts**. With your **Mind** you are able to rewind back to past events in your life, and reflect on when you were happiest. Go back into your **Mind** now and reflect on **true happiness, true freedom!** Also think about this, your **Mind** is linked to your **Physical Body**, and thoughts of hate, anger, etc... have a very detrimental effect on your **Physical Body**. When you constantly have these types of **Thoughts, Thoughts** of hate, anger, etc... all of a sudden you will notice your head will begin to hurt; your heart will start beating faster etc...

Physical reactions correspond to the nature of your **thoughts** because again your **Brain** which is the switch board of your mind. Your **Brain** sends signals to your **Nervous System** and depending on what type of thought you are having at that very moment sends out chemicals which are secreted through the

The Endocrine System

The Vibration of Thought Energy

Glandular System of your **Body** called **Endocrine System** which then is released into your **Blood Stream** to produce **Emotional reactions** that are ultimately affecting ones health and **Mental** stability. Some **Physical reactions** many might have experienced are shortness of **breath**; ones heart beating faster, and even a calm, warm feeling of peace and serenity.

Question: What is the Power of Thought?

Answer: What we must begin to realize is, all **Human beings** on the **Planet Earth (Ptah-Nun)** project some type of **Vibration** to all those around them. Some people project a “**Positive**” **vibration** to all those around them and these are the people who are a pleasure to be around. These types of people seem to have a certain energy that they share with others. Then there are those People who are totally absorbed, by the **Negative** and the depressed,

The Vibration of Thought Energy

and they seem to actually draw energy out of people in their environment. The reasoning this happens is because there is **Power** contained in **thought**, and this **Power** is very **subtle** (not seen) though it can be felt by all who come with these types of People, places and Environments.

Now is the time to realize that we as Humans are constantly **sending (transmitting)** and **receiving Thoughts**. This is why People have experienced what is called **ESP (Extra-Sensory Perception)**, or even **Telepathy (Tell-A-Ptahite)**. How many times have you thought about a person and they call? How many times the phone rang and you knew who it was before you answered, or how many times you thought about a person that you have no seen in a while and then you see them the next day? These are all examples of the **Power of Thought!**

The Vibration of Thought Energy

Think about this... Every **Thought** has a shape, color, weight, size, frequency, vibration, and tone. For example a highly charged **Positive Spiritual Healing Thought** will give off a color of **Green**, where as a **Negative Thought** charged with **hatred, anger and greed** will give off the Color **Red**.

Question: What do you mean your Thoughts give off a Color?

Answer: What we are saying is around your **Body** there is an **Atmosphere**, called an **Electromagnetic Field of Energy** known as an **Aura**. Your **Thoughts** have an effect on your **Mood** which affects your **Aura Color**. Your **Aura Color** equals **Frequency**, which is a **Vibration** that is being transmitted back out from **You** and **Seen** and **Felt** by all others around **You**. Take some time to do some research on "**Kirlian Photography**". Light sensitive Photographic equipment have been developed

to pick up on **higher band width frequencies**, that are able to take pictures of undetectable **Lights** around **living organism** be it **Human Beings, Plants** or **Animals**.

Question: What is an Aura?

Answer: There are **two currents** of **Electrical Energy** that run through your body creating a “**Magnetic Field**” called your **Haalat** or **Aura**, your **Electro-Magnetic Field (Aura)** is a part of Earth’s (**PTAH-NUN**) **Magnetic Field** in which your **Aura (Electro-Magnetic Field)** Moves independently. These fields are composed of **Negative** and **Positive** vibrating **Energies** or **Forces**. These forces are known as:

Centripetal Force – That comes towards the **Planet Earth (PTAH-NUN)** from the universe (i.e. Energy from the Sun, Moon, and stars or other Solar Bodies.)

Centrifugal Force – Force that comes from (within) the **Planet Earth (PTAH-NUN)**, (i.e. energy from **plants, minerals, the soil, and water**).

Human Beings **Aura (Halaat)** contains your **Spirit (KAA)**, **Soul (BAA)**, and **Physical (KHAT)** form. The **Halaat (Aura)** which is the “**Life Force**” (**Ankh, Sekhemic Energy**) of the Body may be looked upon as the **Atmosphere** of the Body, because your **Aura** reflects the “**Real**” vital **Body, Mental Mood, (Emotional Energy), Health and Character**.

Notice the word “**Atmosphere**”, which is very key to knowing your relationship with Planet Earth (**PTAH-NUN**) and ALL (**PAUT**).

The word **Atmosphere** is defined according to the Merriam Webster’s Colligate Dictionary as: (N) Greek Atmos – “Vapor”, Sphaera, “Sphere”. (*The gaseous envelope of a celestial body, “as a*

planet”), a surrounding **influence** or environment.

The word **Influence** is defined as: (Influere – to flow in) from Fluere “**to Flow**”.

- An **Ethereal (Etheric) fluid** held to flow from the stars (*which are Suns*) and to affect the actions of Humans.
- An **Emanation of occult (hidden) power** held to derive from **stars (SUNS)**.
- An **Emanation of Spiritual or Moral Force**.
- The act or power of producing an effect without apparent exertion of force or direct exercise of command.
- The Power or capacity of causing an effect in **indirect** or **intangible** ways: To sway

The Vibration of Thought Energy

The word **Emanate** is defined as: from “Manare” **to flow**, to come out from a **source**. “**Emit**”.

So according to these definitions your **Aura** which is the **atmosphere of the body**, can be seen as having an “**influence on your environment**” via your “**thoughts**” which is your **mental state** and **mood** which is your **Emotional Energy** or Energy in Motion, which is “**Electro-Magnetic**” in nature. So at times depending on your Emotional Moods you can have a **Aura** or **Atmosphere** around you of **Positive 9ether, life giving forces**, or **Negative, draining 6ether death causing gases**. So these different layers or Moods of Vibration (*Emotional Energy*) are reflected in colors, which may appear cloud like or bright and clear according to the **Emotional Mood** a person is vibrating on. The colors and moods of vibration fluctuate depending on a person’s mental state, and mental attitude. Positive mental attitude

The Vibration of Thought Energy

reflect bright, clear and vivid colors which attract ether life giving, vitality particles.

A Person's **Aura** can be felt, which is why you have heard the statement many times "that person gives off a good vibe," The word vibe equals **vibration**. Some people are a pleasure to be around, they seem to revitalize, and invigorate everyone they come in contact with. These are your life giving people who have Positive Etheric particles within their Energy Fields or **Aura**. All they attract is good and Positive. These are the people who always seem lucky or always seem to be upbeat and have a Positive outlook on everything. They are upbeat and full of life!

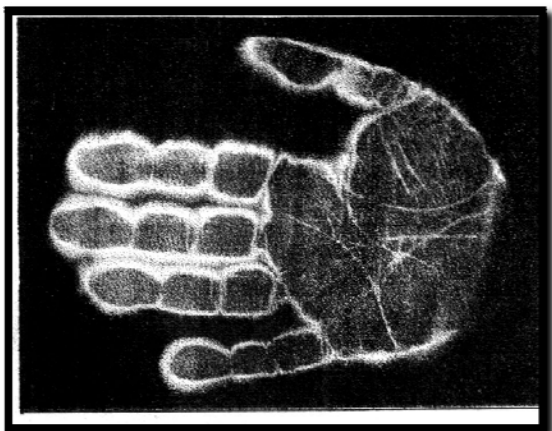

Then you have the person who seems to "**drain your energy**" when you come in contact with them, you have stepped into a **negative Aura atmosphere** (Energy field), an **Aura atmosphere** full of **fear, doubt, worry**, and

The Vibration of Thought Energy

anxiety. After being around such energies emitting from these kinds of people, you start to doubt yourself, and your confidence is undermined. This means there **Aura** is spilling into yours, and they are sucking your energy, such people in this day and time are known as **“Energy Vampires”**. They seem to complain about life and all the Negative things that happen. They love to play the victim role or “why me”, “poor me” role. These kinds of people have **“crystallized” a negative Aura Field** around themselves subconsciously, which remember, is reflected by your **Mental attitude**. Having **Negative Thoughts Attract** these **Negative 6ether Energy Forces** within your **Auric Fields**.

These types of **People** if you are not able to raise their **Mental State**, thus raising their **Vibration** or at least teach them how to stay on the **“Positive Life,” Frequency** should be avoided at all cost.

The Vibration of Thought Energy

The Human Aura (Electrical Field)

**Question: Why is this important in 2010
leading up to 2012?**

This information is important because of the **Shift in Vibrations** that is taking place now on the **Planet Earth (PTAH-NUN)**. As you learned earlier **Earth's Vibration** is changing as our **Vibration** is also changing, to a more **Positive Time Cycle**. Within this **Time Cycle Positive Energy** must prevail in order for the existence of the **Human Race** and all life on it. The **New Cycle** called the **Solar Cycle of Re (The Sun Cycle)** is a **Cycle** that is geared towards the **Positive reception of Astrological Forces** within each **Person's Grid Matrix** of their **Molecular Structures** of their **Atoms**, in others words you are going through a **"renewal process"** on a **Atomic, Cellular Level** called a **Genetic Shift!**

This is a time where **(NU)** new **ideas**, **(NU)** new **awareness** is taking place **within** each **Human Being** upon this planet **(Ptah-Nun)**, where you

must now **give into the Positive Forces of Nature** which is the **Black Light** seen through the **Visible Light Spectrum(Electromagnetic Spectrum)** as **Ultra Violet Light (UV-Rays)**, then on to **Green Light**. Have you noticed in this day and time everything is going **Green**? The **Green Vibration** is now being promoted as **Mother Nature** is ready to **heal, cleanse**, and shed the old skin, shed the old ways. Now is the time for **Global healing**, and with **healing** comes **purging** and **cleansing** thus **Death** and **Destruction** should be seen as the **Body (Mother Nature –Earth)** is **cleaning** or getting rid of all the **negative** and **old poisons (NEGATIVE PEOPLE, VIBRATIONS)**. We are now in the “**Era of Balancement**”, **MA’AT (Truth and Justice)**, and the true war of **Armageddon!**
NOW IS THE TIME!

Question: What is the War of Armageddon?

Answer: Many Sects of various Religions (**Chirstism, Muhammadism**) have used this word to paint at picture of a war in the last days as they call it. A war between **the right** and **just (Righteous)** and **Wrong doers** or **evil**, in reality we as **Esoteric Thinkers** and **Doers** of all the **Ancient Writings**, know that the **true war of Armageddon** is the war “**within oneself**”. For the **world within** is nothing but a **reflection** of the **world without** and **vice-versa** as our **Ancient TaMa-Rean Ancestors** taught “**AS ABOVE SO BELOW**”. So in these days in time which is the end of one cycle called the **Moon (lunar) Cycle of Death, Evil, Hate, Greed**, etc...into the **Solar (Sun-GOLDEN) Cycle of Life, Mind, Positive, Joy, and Living** we must constantly do battle with that **Lower self** that is aligned with the **Negative Forces of Nature** that still want you to do all ills against your own being, so that the **Higher Self (GOD SELF)** can

The Vibration of Thought Energy

come forth in greatness which is truly birthed from the **Positive Forces in Nature**.

Question: How did the Ancient Egyptians View Thought Energy?

Answer: Our Ancient **TaMa-Rean** (Egyptian) ancestors knew that **Thought Energy** was all there was throughout the **Boundless Universe (Multi-Verse)** and We **Ancient TaMa-Reans (Egyptians)** attributed **Thought Energy** to the **Deity of Wisdom and Writing** known as **Thoth, Djehuti, or Tehuti**. We **Ancient Tama-Rean (Egyptians)** knew that all there really was throughout the **Boundless Universe (Multi-Verse)** is **Thought Energy** known as **NU** or **NUN (Pronounced NOONE)**. Many times you made have heard of this statement “**AS ABOVE SO BELOW**”? This is based on an **Ancient Tama-Rean** teaching of **Tehuti, Djehuti, or Thoth**, “what goes up must come down”. What happens in the “**UNSEEN**” world will manifest

The Vibration of Thought Energy

in the “**SEEN**” world, what happens in the more subtle world of **ETHER, ATOMS, AND MOLECULES**, will manifest in the world of “**VISIBLE**” Matter.

Another example of the “***As Above So Below Principle***” is whenever you have a cut, or scrap or any damage to the outer skin, when you examine further with a **Microscope**, you will come to see that the cells around the area is damaged or even “**dead**” no life! This is how you know that there are things happening or more **Subtle Levels**, and our **Ancestors** viewed **Thought Energy** in the same manner. Even though **Thoughts** that are playing in your head right now in **Picture** form, cannot be seen by other people looking at you, eventually they do manifest and play out in your everyday **Life**!

The Vibration of Thought Energy

“Watch your thoughts; they become words. Watch your words; they become actions. Watch your actions; they become habits. Watch your habits; they become your character. Watch your character, it becomes your destiny.”

ALL is THOUGHT! THOUGHT IS ALL!
